I purchased two of your products and I need some advice. I had some success with body language/non verbals that make a woman get horny(I had a cheerleader at my school follow me around like a dog!- and initiated with me)

I am relatively new to pickup/dating because I was focused on sports (Division 1)(which helps me a little since women are constantly looking at me). So far the non verbal "techniques I have done are the eyebrow flash and lounging (really taking up space).

I guess what I am really trying to say is most of the success I have had is because I'm an athlete. I want to learn more and have more choice in the girls that are attracted to me. Are there any body language/non verbal gestures you would suggest to "get her horny"?

-[Jack]

P.S. after using your material I have had 3 women tell me we should talk more often (they said they felt like I really understood them)

Hey [Jack]

As far as body language stuff, I would strongly suggest that you don't get too caught up in it...

I know there are people out there teaching that kind of stuff, but to me, I feel that it appeals to a guy's laziness... I'm going to assume that you are MORE CONCERNED with getting "actual results" and "being as effective as humanly possible" and "being the most desirable guy (according to her)"....

I do get the appeal....

You raise your eyebrows...you stick your chest out slightly...and stuff like that and then "magically" the woman wants to screw you silly...

In a more calm & rational world, you REALLY DO NOT want to associate (on any level) with ANY WOMAN that would seriously consider screwing you just because you micro-managed a few body movements....

I'm not saying that women do not pick on this kind of stuff... because they do...

Any guy who doesn't realize this is kidding himself...

...but in reality [Jack], if you focus on things like feeling 100% amazing about being YOU (which could be done by consciously looking at a list of things that made you "feel good", "accomplishments that you are proud of", "all star moments with women (in the past), and things like that...) THEN....

....you'll AUTOMATICALLY (and PERFECTLY) send powerful body language micro-signals (whether you realize it or not)...

When you automatically (instead of consciously) send the signals, they will be 500 TIMES more powerful...

btw, what do you do specifically (if you can recall) to get the girls attracted to you...

Let me know...

Warmly
CR

I have an idea in my head that I can't get past and it is stopping me from better understanding this idea. what stops a woman from wanting sex on a conscious level why don't they already see sex as a reward is it because they think it's easy to get is it because they think they are giving instead of getting.

If a man that a woman values says no to sex often will the woman get like I was when I bought your book.

Is this how it really works???

Are people really this simple??

Thanks
[Tom]

Hey [Tom],

To answer your last question first, people really are simple...

Our desires are simple... but that's not a bad thing...

Humans want to feel good.
Humans want pleasure.
Humans want to be happy.
Humans want to be loved.
Humans want to be desired.
Humans want to feel special.

Most people seem to be 'wired' to make things complicated. If you really want to be effective, you'll focus on understanding all of the simple things.

Sometimes when I'm helping a guy in his relationship, I have to spend so much time getting him to realize that a woman's needs are very basic. And even still, some guys will respond: "Women are so complicated."

In general...

If you want to get results like the top 10% guys in the world (even though there's no way of measuring this), then you're NOT going to do what 90% of guys do...

Similarly, if you want to get the results like the top 5% guys in the world, then you're NOT going to DO what 95% of guys do...

...if you want to get the results like the top 0.001% guys in the world, then you're NOT going to DO what 99.999% of guys do...

As far as your question...

Here are three of the biggest things that stop women from wanting sex on a conscious level.

Thing #1 - "The guy is too available"

It's simple.

If she 'believes' that she can get sex from the guy ANY TIME she wants, then she is forced to devalue sex with him (to some degree)...

The perception of abundance will always decrease the value for sex...

Just like the perception of scarcity will always INCREASE the value of things (i.e. "having sex with you")

Of course, the "thing" has to have some sort of initial value. No one is going to want/buy a bag of shit - even though there are ONLY 3 bags left!!!!

Just like a guy might not care if a 900lb woman said, tonight we're NOT going to have sex, ok!!! (in an effort to create scarcity... i.e. - to get him to understand that he can't ALWAYS have 'it')

Scarcity & Abundance Control (Supply and Demand) is a classic concept that is always at work.

When you were a little kid, the BULK of the DESIRE to play with the 'cool new toy' that you wanted for your birthday had to do with NOT HAVING IT... But once you finally get it, the desire kind of melts away...

...simply because the 'time/opportunity' to play with it is abundant (meaning you can play with it ANYTIME you want)...

And as a result, the desire naturally goes down...

And at some point (after enough time has gone by) it gets old.

As a warning: You must make sure she doesn't ever think she can get it whenever she wants.

That's why I tell guys (in SuperSeductionPower.com) to turn her down for sex from time to time (even if you really want it)[and even though this is an unconventional tactic].

You have to remember most women are 'wired' to be addicted to "newness" - that's why they love to shop. They'll buy a dress one day and it will be the greatest thing ever, but suddenly after a few weeks, it's not as special...

And it will never be as "valuable/desirable" as the dress she doesn't own.

So if a woman (in a relationship) has the Deadly Abundance Disease (meaning, in her mind she thinks she can get it from the guy anytime she wants) then she needs to be CURED! (and fast) (if you own a copy of SuperSeductionPower.com, then you know that there are several pretty cool techniques to do this)[if you do not have a copy, then keep it simple and actually turn her down at a time when she really wants it - and she'll have no choice but to get the message that she can't have it whenever she wants.

It's called making a "sexual investment" because of course, you end up missing out on sex that night, but the "impression that it leaves" builds value for future sexual sessions.

The Law of Abundance will ALWAYS reduce the value of the item.

That's why too much of an item in a store will lead to the owner marking it down to 75% off

Thing #2 (...that stops women from wanting sex) How Sex is Framed In Her Mind

This is a case where the guy does a bad job at framing "sex" (specifically, 'having sex with him') in the mind of the woman.

For example, he makes it out to be something that she controls...

...or something that she has power over.

...something that she owns.

...something that she gives him.

...something that he has to earn.

This happens with single guys and relationship guys...

Most guys don't even realize they are doing it, because it leaks out in their language.

Instead, the guy should speak about sex as if it is a 'reward for HER' because that's what it IS (or should be)...

Some guys will even ask their partners: "Are you going to GIVE ME some later on?"

Which is not the same as saying: "You've been a good girl, so you have earned my World Class Massage" (without even implying sex)

Then while you're massaging her (in a seductive environment - and with her mind at ease)... you could whisper : "NOOOOWWWW. You get to slowly take off your panties"

(She's thinking: OK!)

(And this if after you have build sexual tension the right way.)

Again, this is much different than: "When are you gonna give me sex!! It's been 3 weeks!!!!"

(As if we live in a world where semi-hostile expressions of impatience is an acceptable means of generating arousal.)

So always consider how you are "framing" sex.

Every guy should ask himself:

"Is it a "chore" in her mind?"
Or is it a "reward" in her mind?"

You want to be consistent!

So anytime you're talking about sexual topics, don't phrase it like: 'When was the first time you gave a guy sex?' (Or when was the first time you gave it up)...

Instead, say something like: "When was the first time a guy GAVE YOU some?"

Or...

"When was the first time a guy let you have some."

If sex is FRAMED as work (i.e. wifely duties, taking care of his needs, keeping him happy, etc,) it's going to feel like a chore...

:: Success Story ::

Hi CR

I have a success story for you.

My wife always said that sex was just for the man and she did it only for me. I always asked for it and started to believe it, until I found your books.

After reading them I stopped asking and started making sexual tension.
She did not know what I was doing so it was fun to do.

After 2 days the results started to show. She did not want to give in so she said that we could have sex if I wanted.

I said that I was not in the mood so maybe some other time. She was looking at me like I was crazy.

The next day she started to trick me into having sex but i did not give in. She was wearing sexy clothing or started hugging and kissing me.
That night she finally gave in and she was all over me.

It was great and now she initiates all the time.

I can now tease her with the things she said before, like sex is only for the man (hahahahaha what a joke).

Well thanks for your wonderful work

Hey [Zach]

I really appreciate you taking the time to email me this success story.

I never get tired of reading them...

In fact, I was just writing (again) about this concept - so your timing is great because i can actually use your email as an example of how effective a guy can be just by applying this "one little tip"....

Enjoy your weekend [Zach]...

Best Regards,
CR

Thing #3 (...that stops women from wanting sex) – Sexual Value

This is self-explanatory.

If the guy doesn't DO (or understand that it's POSSIBLE to do) things that Project Sexual Value, then it would be silly for him to expect to ever get any kind of success...

So here's the Recap:

- **You must never be too available for sex. (Thing #1)**
This is the puppy dog approach – where you metaphorically follow her around as if you are saying “Can we can sex now? Can we can sex now? Can we can sex now? Huh? Let me know? Can we can sex now?”
- **You must never frame sex the wrong way in her mind. (Thing #2)**
- **You must never pretend that your Sexual Value isn't a factor (Thing #3)** in “pressing her deep-horny buttons” This is where you acknowledge reality – so that you understand that when a woman is “in heat”
